

# SOLO TAXONOMY RUBRIC FOR EXPLORERS – Aidan and Liam

• Prestructural	I Unistructural	III Multistructural	Ⓜ Relational	Ⓜ Extended Abstract
Needs assistance	Definition identifies one relevant idea	Definition identifies several relevant ideas	Definition identifies several relevant ideas and links these to the whole	Definition identifies several relevant ideas and links these to the whole. Taken into another context.
I have no understanding of the explorer that I studied.	<p>I have limited understanding of the explorer, who they are and where they were born.</p> <p>I have limited understanding of the uses of the explorer's discoveries.</p> <p>I have looked at one thing that they discovered.</p>	<p>I know what my explorer has achieved over their lives: Timeline.</p> <p>I understand the uses of the explorer's discoveries.</p> <p>I have shared my interest in my topic.</p>	<p>I know what my explorer has achieved over their lives: Timeline, questions, conclusions, images, facts and quotes.</p> <p>I understand the uses of the explorer's discoveries and I have shared a strong understanding of my explorer,</p> <p>I have used the internet and books to gather information.</p> <p>I have used images/ colour and effective transitions on my powerpoint to engage my audience.</p>	<p>I have used the internet, books and people to gather information.</p> <p>My powerpoint or poster shares my ideas and opinions. I have made comparisons to what life would be like now without those discoveries.</p> <p>I have put my information into my own words so others can understand.</p> <p>I have a variety of facts and information and my question has been answered.</p> <p>I have set out my information clearly and effectively, it is fully edited.</p>
<p>You worked well as a team, boys. You chose a difficult explorer to research in terms of the information available and managed to find some good material. Some main facts were missing in places, persevere with this, as the information is out there. The class enjoyed your "did you knows?" Watch your editing next time and work on beginning with a more open question.</p>
